Dear Firas,

Congratulations!

Once we have finalized our schedule you will receive a separate email from NewFilmmakers with information about sending us your screening link and with the date of your screening.

Over the past years, our online audiences have greatly exceeded those in theaters. With [NewFilmmakers Plus](#) we have added the missing audience participation to our online screenings. With NewFilmmakers Groupview filmmakers, cast, and crew as well as audience members can create interactive video screening rooms while watching a film.

In addition our films will now be available for one month and screenable any time of the day instead of only one night. This allows more people to see our films and makes it easier to set up a screening event with friends and colleagues.

As requested we are switching to filmmaker hosted files utilizing unlisted YouTube links which will eliminate the need to transcode and to send us large files as well as giving filmmakers control over their film.
